The President played to a crowded house two years; James A. Tupper, convicted as the case of the Lake Shore engineers and the today. The list of appointments of fourth class post masters given out at the department today contains the names of forty-eight postmasters appointed. Of this number thirty-seven were to fill vacancies caused by removal.

The mass of papers in the cases of the fourth class offices are distributed throughout the entire department and from 4 to 5 o'clock each day all the employes are engaged in briefing the papers. In this way it is hoped that the cases may be prepared ready for action months before they could possibly be if the usual course was pursued.
